

Hi my name is Zoe I did native sons and daughters for 8 years. I had a lot of fun and a few of the things I experienced were canoeing, kayaking, fishing, rock climbing, zip lining, egg toss, sack racing, critter race, scavenger hunts, roller skating, ice skating, swimming, helping the community by picking up trash or cleaning up houses, donating to people that need it, long nights among the fire, and best of all hanging out with my dad. My favorite thing has to be hanging out near the fire because everyone was having their own conversations and me and my friends in the group would all get together and draw or write story's. I'm going to miss it. I've had an awesome experience in these camping trips and it might be sad to leave but I and my father have for sure made a lot of friends that we can hang out with.
